The Letter I by Lain Iwakura

Preface – The Float

This book is on the float. I discovered my letter ‘I’. So, I thought I could write a lengthy book on the float or how the float works. You might allude to the rabbit hole I had placed online that could disappear at any moment should my archive disappear. I conspire you look into it. Let alone this book on the float is preceded by my submission for the Nobel Prize or I thought I deserve the Nobel Prize for my hard work, introspection. I have put at much hard work into introspection as I possibly could by the month of august, 2025 let alone I was on the float all along so I will go through this here.

The Submission For The Nobel Prize by Lain Iwakura – Research Paper #0

the letter ‘i’ is --. – is Mexico . is the moon the trickster is the letter i with three points on the -- so point 1 is 10/06/1948 point 2 is the month of august (2025) point 3 is 12/18/2073 the trickster is the one but who is the trickster? The trickster is the one. The trickster is a muslim woman who is black. The woman is allah. Allah is not the woman. The woman is also galaxy #0. The form of allah is the ender dragon who is male. The ender dragon is the concept of death. The void in other words. The woman takes the form of this dragon. The woman is the trickster, the one. The one is allah. Then the trickster is allah. The trickster is only a muslim woman who is black but what is galaxy#0? Galaxy#0 is diagrammed as a line with three point or the line continues indefinitely beyond the third point. Point 1 is 10/06/1948 (my form). The line goes until 8/14/2011 to point 2. Point 2 is 8/14 of any particular year, the special date. There is the progression to point 3. Point 3 is 12/18/2073 (my own death). The line continues to (fall deep into the void). The enigma is a at a place outside galaxy#0 yet a part of galaxy#0. The enigma lies outside the galaxy#0. but what are you? you are a woman who is allah. The form of allah is the ender dragon who is male. The woman is galaxy#0. The ender dragon is the concept of death. The void in other words. The trickster is the woman so the trickster is thus the one or allah. This is my submission for the nobel prize, you know. I do deserve this prize for my work. I think without this prize I won’t be lost but I’ll be disappointed. I deserve the nobel prize, man.
